Digital Health Sandbox Program

Solicitation No. 2019-MeHI-02

Massachusetts Technology Collaborative
75 North Drive
Westborough, MA 01581-3340
<http://www.masstech.org>

Solicitation Issued: 4/24/2019

Team Leader: Katherine Green

Initial Applications Due: Rolling

1. INTRODUCTION

The Massachusetts eHealth Institute (“MeHI”), a division of the Massachusetts Technology Collaborative (“Mass Tech Collaborative”), is offering grants to fund projects to support companies looking to test and validate new products and services in a sandbox environment. MassTech Collaborative anticipates awarding grants in the range of \$25,000 to \$60,000.

Mass Tech Collaborative acts as the contracting entity on behalf of Massachusetts eHealth Institute and will enter into an agreement with selected Applicants containing certain standard provisions (the “Agreement”) (*Link to the [Mass Tech Collaborative site](#) for the template Agreement*).

2. GRANT OVERVIEW

2.1 Background

In 2016, Governor Baker launched the Digital Health Initiative (the “Initiative”) to position Massachusetts as a leading ecosystem for digital health innovation. Through the Executive Order, the Governor established the Digital Health Council (the “Council”) to advise and develop a growth plan to achieve the goals of the Initiative. The Council is co-chaired by the Secretary of the Executive Office of Housing and Economic Development and Dr. Jeffrey Leiden, Chairman, President, and CEO of Vertex, and is supported by the Massachusetts eHealth Institute. In 2017, the Council recommended focusing on three priority areas: creating a distributed data network; improving the Commonwealth’s digital health ecosystem and connectivity; and supporting pilot environments and product validation. Under the last priority area, the Council recommended supporting sandbox environments to support the lifecycle of research and development for digital health companies. To help achieve that goal, MeHI established a Digital Health Sandbox Grant Program and formed an Independent Steering Committee (“ISC”) to advise MeHI on the development of the program and the criteria for evaluating applicants. The ISC will review applications and make funding recommendations to MeHI.

2.2 Grant Requirements & Guidance

MeHI is releasing this solicitation for applications from Massachusetts based digital health companies seeking support to test and validate their products or services in a sandbox environment. This is a rolling solicitation and any responses submitted after the initial deadline will be reviewed on a periodic basis pursuant to the evaluation criteria set forth in this solicitation.

MeHI, after receiving recommendations from the ISC, will select Massachusetts based sandbox environments to participate in the program. Information on the participating sandboxes and their capabilities will be kept up-to-date on www.massdigitalhealth.org. Sandboxes will be periodically added as they are approved by MeHI. Applicants should carefully review the information to determine which sandbox can support their testing needs and they are strongly encouraged to engage in conversations with the sandboxes before applying.

Applicants must complete Attachment A, the “MA Digital Health Sandbox Program Application”. The application should indicate the sandbox they would like to work with and clearly describe the applicant’s organization, their proposed use of the sandbox, any equipment needs, and expected outcomes during the project period. If selected, in addition to contracting with MeHI, applicants may be required to execute agreements with their selected sandbox. MeHI anticipates directing any awarded funds directly to a selected applicant’s sandbox environment. At the end of their project, selected applicants will be required to submit a final report summarizing their project, outcomes, barriers to completing the project, and plans for next steps, including the ability to move into a clinical environment post-testing. Additionally, in order to evaluate and evolve the overall program, MeHI

plans to follow up with selected applicants after the grant to understand the long term impact of the program.

Selected applicants are eligible for grant awards expected to range from \$25,000 to \$60,000. Award amounts will be based on the cost of the applicant's proposed project, the applicant's annual revenue, the amount of funding the applicant has raised, and other criteria recommended by the ISC.

3 EVALUATION PROCESS AND CRITERIA

MeHI will collect and prepare the applications for the ISC to review. The ISC will make funding recommendations to MeHI based on its review.

The following evaluation criteria will be used to review Applicants:

- Feasibility of the proposed project, including:
 - Technical merit
 - Economic viability
 - Uniqueness of company or product in the digital health ecosystem
- Potential impact of the project, including:
 - Impact of the project on the company
 - Impact of the project on expanding and strengthening the state's economy
 - Impact of the project on patients' lives
- Projects addressing the following areas will receive preference:
 - Cybersecurity and privacy issues
 - Cost or access challenges identified by the Health Policy Commission or other public bodies
 - Workflow for new technologies in home or hospital settings (e.g. wearables or consumer apps)
 - Collaboration with academic researchers to increase the evidence base for digital health solutions

All applicants will be notified of final decisions via e-mail to the identified Project Director. We anticipate that funding decisions for the first round of applications will be made by 7/15/2019.

4 APPLICATION PROCESS

4.1 Application and Submission Instructions
