Solicitation Issued: May 8, 2019

1. INTRODUCTION
The John Adams Innovation Institute ("Innovation Institute"), a division of the Massachusetts Technology Collaborative ("Mass Tech Collaborative"), is offering to fund a pilot project to support a Tech Talent Diversity Initiative in the Commonwealth of Massachusetts.

Mass Tech Collaborative acts as the contracting entity on behalf of the Innovation Institute and will enter into an agreement with selected Applicants (See Attachment C for the template Agreement). The grant provided through this solicitation will be supported through state funding through the Internship line item. The Innovation Institute reserves the right to make more than one award, depending upon the various approaches and impacts that are proposed within the applicant pool.

2. GRANT OVERVIEW
2.1 Intent
The Innovation Institute is looking to support a focused effort that increases the number of individuals from underrepresented or diverse populations who are offered internships or entry level employment opportunities within technology firms across the Commonwealth. This RFP offers applicants the opportunity to propose creative project(s) to increase the successful placement and retention of talent for tech internships, apprenticeships, and any entry level tech sector jobs from underrepresented groups such as women, African American, or Hispanic individuals. This program is committed to seeking out and supporting exceptional initiatives capable of achieving this goal in a region or across the state as a whole. The Innovation Institute looks to also improve levels of achievement and “quality of experience” at places of employment for individuals of diverse race and gender when placed into tech companies. The Innovation Institute is open to any range of creative proposals that will contribute to these goals.

This Tech Talent Diversity Initiative award offers civic, business, or nonprofit organizations a unique opportunity to address one or more of the following: 1) streamline the identification and recruitment of diverse candidates for internships or entry level positions; 2) support candidates’ efforts to be placed in workforce opportunities; 3) support successful work experience; 4) improve employer practices toward increasing participation and retention rates among diverse populations, including efforts to address potential unconscious bias in employer hiring and retention activities.

2.2 Background
Massachusetts is in the enviable position of having both a thriving tech economy and a world-class network of educational institutions and training programs that produce tech talent at a rate higher than any other state in the country. However, there is increasing concern that not all residents of the Commonwealth are able to participate in the tech economy and that the tech workforce is not representative of the demographics of the communities within which many tech companies are located. In addition, there is low participation among women, African American, and Hispanic individuals in Massachusetts when looking at tech-related occupations compared to the workforce as a whole. As of 2017:

- Women hold 49% of jobs in the Commonwealth, but only account for 28% of computer, engineering, and science occupations.¹
- African Americans hold 7.5% of jobs in the Commonwealth, but only 3.4% of computer, engineering, and science occupations.

engineering, and science occupations.\textsuperscript{2}

- Hispanic individuals hold 10.5\% of jobs in the Commonwealth, but only 5.7\% of computer, engineering, and science occupations.\textsuperscript{3}

Massachusetts has a wide range of training programs and educational institutions, from non-degree bootcamps to four-year colleges and universities that impart valuable tech skills and knowledge to students. However, some of the individuals completing these training programs have a hard time getting hired by tech employers. Tech industry leadership has repeatedly stated the goal of increasing the diversity of their workforce on the grounds of fairness, but also the strong business case that a more diverse workforce leads to increased creativity, more innovation, better consumer understanding, richer brainstorming, and better decision making (Inc. Magazine, 2017).\textsuperscript{4}

Given ongoing challenges to fill positons in Massachusetts technology firms, the Innovation Institute now looks to support efforts to increase matriculation into the Commonwealth’s technology sector from more nontraditional populations and communities from across the Commonwealth.

### 2.3 Grant Requirements & Guidance

**Eligibility:**

Eligible applicants must be a civic, business, or nonprofit entity located in Massachusetts.

**Guidelines:**

Applicants should consider the following guidelines when generating their proposals.

1. **Innovation and effectiveness of intervention:** Efforts to place diverse candidates should address both the candidates for employment and the hiring and talent management practices of tech sector employers. Proposals that address both will be more competitive. Additionally, proposals that can show an effective methodology and proven model will be considered more competitive.

2. **Demonstration of collaboration and stakeholder support:** Workforce and economic development are most successful when multiple entities come together, share a vision, collaborate, and work to create a greater whole. Therefore, the Innovation Institute will look for proposals showcasing support and/or collaboration from multiple organizations, across the spectrum, including a combination of public, nonprofit, and private for-profit organizations.

3. **Generating Public or Private Match:** The Innovation Institute will look positively upon proposals that identify either cash or in-kind match from their participating partners. While match is not required, it can be a strong indicator the proposed project has regional support, can leverage additional investment, and demonstrates a broad-based commitment to the effort. In addition, matching resources may create a more robust project with a higher likelihood of success.

\textsuperscript{4} 5 Reasons Why Workplace Diversity is Good for Business; Altman, Ian; Inc. Magazine; March 15 2017
4. **Outcomes:** Applicants will be evaluated on both the quality and the applicant’s capability to measure the impacts of the program. Please describe the key metrics you will use as your measure of success which may include: number of candidates served and their background, number of candidates placed in full time positions, apprenticeships or internships, annual retention rates of those individuals, and any other appropriate metrics.

5. **Level of Funding:** The Innovation Institute has reserved up to $475,000 for this program to be expended over two years. While applicants may apply for up to $475,000 for high value/high impact awards, the Innovation Institute is open to making more than one award.

6. **Proposal Structure:** Applicants should structure their proposal to address the following:

   a. Describe, in your own terms, the unmet need that your proposal is looking to address.

   b. Description of the proposed program – this should address:

      i. Why you think it is the right approach to address the challenges of diversity in tech?

      ii. How does your proposal effect talent from diverse backgrounds?

      iii. How does it affect the businesses hiring talent from diverse backgrounds?

   c. Who are the partners in this project and what are their roles?

   d. How do you plan to measure success both quantitatively and qualitatively?

   e. What is the applicant’s past history, if any, of working within diversity in tech talent or other comparable disciplines? Please describe any past successes.

3 **EVALUATION PROCESS AND CRITERIA**

Each proposal will be reviewed and evaluated against the following criteria:

(a) **Strength of Concept:** Applicants are requested to articulate challenges or describe unmet needs related to increasing internship and entry level employment opportunities in the technology sector for individuals from diverse populations in the Commonwealth. Proposals will be evaluated on the strength of the project to address these challenges. The concept will be reviewed on the strength of the interventions both on the merits of their ability to attract talent from diverse backgrounds and the ability to support sound business practices that increase participation rates among diverse populations within the tech sector.

(b) **Prospects for Success:** Applicants should identify prior professional experience that demonstrates the Applicant’s ability to carry out the recommended intervention. Please provide evidence of success in the prior experience. Where appropriate please provide information on the qualitative and quantitative measures used to evaluate success of this prior experience.

(c) **Partnerships:** Applicants will be evaluated on the strength of partnerships with industry organizations and collaboration and integration with existing training and
internship/apprenticeship programs. Where possible applicants should articulate how they would leverage the existing training and internship/apprenticeship placement resources in the Commonwealth to maximize impact and efficiency. Infrastructure should not be duplicated where it already exists.

(d) **Strength of Project Plan:** The plan for the use of funds articulates milestones and can produce measurable outcomes, such as increased placement of candidates from underrepresented groups, in the given timeframe.

(e) **Strength of Project Team:** Applicants will be evaluated on the strength of their project teams and should articulate their past experiences and successes as relevant to the activities they are proposing to undertake.

All applicants will be notified of final decisions via e-mail to the identified Project Director. We anticipate that funding decisions will be made by mid-October 2019.

Laws ch. 66) and thus documents and other materials made or received by MassTech and/or its employees are subject to public disclosure. All information received by MassTech shall be deemed to be subject to public disclosure, except as otherwise provided herein. It is MassTech's expectation that the overwhelming percentage of documents and information it receives does not contain any information that would qualify for an exemption from disclosure under the Massachusetts Public Records Law. Participants should take great care in determining which documents they submit to MassTech and should assume that all documents submitted to MassTech are subject to public disclosure without any prior notice to the Participant.

b) If Participant wishes to have MassTech treat certain information or documentation as confidential, Participant must submit a written request to the MassTech General Counsel that details the type of information and/or documentation that the Participant wishes to be treated as confidential along with a detailed explanation supporting the application of the statutory exemption(s) from the Public Records Law cited by Participant. Participant should not submit any information to MassTech that it does not want publically disclosed, but should provide enough detail about the information it requests to be treated as confidential so that the General Counsel can make a determination about the applicability of the asserted statutory exemption(s) from the Public Records Law cited by the Participant.

c) The MassTech General Counsel will issue a written determination within a reasonable period of time concerning the applicability of an exemption from disclosure under the Public Records Law. If the General Counsel determines that an exemption is applicable, the written determination will specify the method of submission of the confidential information. The MassTech General Counsel is the sole authority within MassTech for making determinations on the applicability and/or assertion of an exemption to the Public Records Law. No employee of MassTech other than the MassTech General Counsel has any authority to address issues concerning the status of “Sensitive Information” or to bind MassTech in any manner concerning MassTech’s treatment and disclosure of such documents.

d) By signing this Agreement, Participant acknowledges, understands and agrees that the procedures set forth herein are applicable to any documents submitted by Participant to
MassTech and that Participant shall be bound by these procedures and the determination of the MassTech General Counsel.

12. **Treatment of Sensitive Information provided by MassTech**

   a) Participants, as well as other third parties interacting with MassTech (collectively, the “Holding Party”) may receive, have access to or create confidential, proprietary or otherwise sensitive information regarding MassTech, its activities, its employees and/or third parties, such as applicants, consultants, grantees, recipients or respondents under MassTech programs, which information is not generally known by or disseminated to the public as a matter of course. Such information is sometimes referred to as “Sensitive Information.” MassTech expects all Holding Parties to maintain the highest degree of professionalism, integrity and propriety with respect to Sensitive Information at all times. In addition, the Massachusetts Conflict of Interest Statute, M.G.L. Chapter 268A, prohibits current and former state employees (defined in the statute to include regular full-time and part-time employees, elected or appointed officials and independent Participants) from improperly disclosing certain categories of Sensitive Information or using it to further their personal interests, and the MA Fair Information Practices Act, Mass. Gen. Laws Chapter 66A, contains numerous legal requirements aimed at protecting “personal data” from improper disclosure.

   b) MassTech’s policy regarding a Holding Party’s possession of Sensitive Information has two key elements: 1) Holding Parties should not request or accept any more Sensitive Information -- whether of a business or personal nature -- than is reasonably necessary under the circumstances; and 2) In the absence of a specific legal requirement compelling disclosure of Sensitive Information in a particular instance, all Holding Parties are expected to take appropriate measures to safeguard such information from improper use and disclosure.

   c) Because the relevant legal requirements and the nature and scope of the information in question can create uncertainty, Holding Parties are urged to confer with MassTech’s General Counsel if they have any questions about confidentiality, the scope or proper treatment of Sensitive Information, or MassTech’s policies with respect to such topics. It should be noted that the obligations under these policies continue even after this Agreement is terminated.

13. **Choice of Law**

   This Agreement shall be construed under, and governed by, the laws of the Commonwealth of Massachusetts, without giving effect to its conflict of laws principles. The Participant agrees to bring any Federal or State legal proceedings arising hereunder in which the Commonwealth or MassTech is a party in a court of competent jurisdiction within the Commonwealth of Massachusetts. This Section shall not be construed to limit any other legal rights of the parties.

14. **Force Majeure**

   Neither party shall be liable to the other, or be deemed to be in breach of this Agreement for any failure or delay in rendering performance arising out of causes beyond its reasonable control and without its fault or negligence. Such causes may include, but are not limited to, acts of God or of a public enemy, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, or unusually severe weather. Dates or times of performance including the Term may be extended to account for delays excused by this Section, provided that the party whose performance is affected notifies the other promptly of the existence and nature of such delay.

15. **Amendments and Waivers**

   The terms of this Agreement and any attachments thereto can be amended only through a written document executed by both Parties. Conditions, covenants, duties and obligations
contained herein may be waived only by written agreement between the parties. Forbearance or indulgence in any form or manner by a party shall not be construed as a waiver, nor in any way limit the remedies available to that party.

16. **Severability**

Each provision of this Agreement shall be treated as a separate and independent clause and any decision from a court of competent jurisdiction to the effect that any clause or provision of this Agreement is null or unenforceable shall in no way impair the validity, power or enforceability of any other clause or provision of this Agreement.

17. **Headings**

The headings and captions of the various subdivisions of this Agreement are for convenience of reference only and will in no way modify or affect the meaning or construction of any of the terms or provisions hereof.

18. **Counterparts**

This Agreement may be executed in two or more counterparts, and by different parties hereto on separate counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument.

19. **Entire Agreement, Amendments and Attachments**

The parties understand and agree that this Agreement and its attachments supersedes all other verbal and written agreements and negotiations by the parties regarding the matters set forth herein, and can only be amended by written agreement of the parties. The following, including without limitation any schedules, milestones, deliverables, budgets, and other terms relative to the nature of the work to be performed, are attached and incorporated into this Agreement:

In executing this SOW, Participant acknowledges and agrees that its receipt of the Grant does not create any rights of preference for Participant to receive subsequent funding from MassTech.

4. Other Requirements
   Program Evaluation. The Participant agrees to support MassTech’s program evaluation activities, and MassTech’s goal to disseminate information regarding Participant’s experiences. To this end, the Participant agrees that its key personnel and contractors working on the project will be available at reasonable times with advance notice to be interviewed by MassTech or its
authorized representatives for purposes of program evaluation or case study development.

5. **Payments**

The Participant shall follow Generally Accepted Accounting Principles ("GAAP") as well as any applicable accounting standards related to the Participant’s receipt of other federal or state funds.

Therefore, Participant may shift funds between the line items associated with each category provided that the totals for each category as set forth in the Project Budget are not exceeded. Any variance between budget categories or other budget modifications will be reviewed in accordance with MassTech’s Budget Guidelines in effect at the time.

c) **Payment Terms.** MassTech shall pay the Participant within thirty (30) days after receipt of invoice and determination by MassTech that all proper documentation has been provided, unless MassTech should determine that any such payment or any part thereof is otherwise not properly payable pursuant to the terms of this SOW. 3. *Direct Costs/Travel*: all direct costs and travel expenses shall be itemized on the invoice and supported by documentation such as vendor invoices, travel vouchers, expense receipts or other documentation as required by MassTech.

To the extent Participant has an accounting-system that can track and generate reports, for this project alone, which would tie back to invoice amounts and budget categories, MassTech may review this in lieu of documentation as listed in this section, subject to MassTech approval of form and format.

(Milestone or Fixed Price language)

Participant may submit invoices for payment upon completion of the work or milestone in accordance with the schedule set forth in Attachment A. Invoice documentation must be in accordance with the project or milestone requirements set forth in Attachment A.

6. **Access and Use**

Participant agrees to license or otherwise make available to MassTech in perpetuity, without charge, all materials prepared and produced for the project, including, without limitation, all plans, specifications and analyses developed in connection with the project for MassTech’s use and dissemination. Participant agrees that MassTech shall have the right to make use of and disseminate, in whole or in part, all work products, reports, and other information produced in the course of the project, and to use the information therein contained to produce summaries, case studies or similar information resources.
